Profile

A Data Analytics enthusiast with a solid foundation in Data Visualization strategies, including Python, Machine Learning, Power BI, and Advanced SQL. Highly motivated and detail oriented, eager to kickstart a career in the dynamic world of data analysis.

Courses

Data Analytics, Masai School

BE Mechanical, RTMNU Nagpur

Skills

Python

Advanced SQL

Power Bi

Machine Learning

Data Scraping

MS Excel

Data Visualization

Mongo DB

Professional Experience

Technical sales Engineer, Macfos Ltd

Pune

As a Sales Engineer at Robu.in, excelled in client relationship management and provided tailored technical solutions

Projects

Data Scraping project | Masai School, *Developed an automated data scraping tool for IPL matches using Selenium* 📄

Streamlined data collection for cricket analysis, providing comprehensive and efficient match data in a tabular format.

Pandemic Metrics India Edition,

Data Analysis Project | Masai School 📄

utilized Python, and Power BI to analyse and visualize pandemic data. From fetching real-time COVID data to creating insightful dashboards, navigated challenges and uncovered meaningful trends.

Nifty-50 Stock Price Prediction and Portfolio

Analysis, Machine Learning Project | Masai School 📄

Developed a system using machine learning to predict Nifty 50 stock prices and calculate portfolio returns. Utilized data scraping, trained ML models, and integrated Google Sheets for seamless user interaction and analysis. Implemented an attractive frontend for displaying essential stats and returns.

Cricket fever born of new IPL team,

Data Visualization Project | Masai School 📄

Conducted thorough analysis of historical player data from the Indian Premier League (IPL) to identify high-performing players and optimize team composition. Utilized data-driven insights to formulate strategies aimed at maximizing team performance and profitability.

Certificates

- Hacker Rank Certification in Advanced SQL 📄
